FROM WALL STREET

Price Changes Early Mixed, But Auto and Rubber Issues Under Pressure.

NEW YORK, July 29.—Price changes were again very mixed and confusing at the opening of today's stock market. The independent steels and automobile issues, including rubber accessories, were under further pressure, but rails and equipments responded to moderate covering. Crucible Steel and Chándler Motor lost 14 points each, and Keily-Springfield tire dropped 2 points. Central Leather recovered part of yesterday's setback, and firmness was shown by such leaders as U. S. Steel, Baldwin Locomotive and Reading. Early quotations for exchange on London denoted more acute weakness.

Additions to the advance of the morning were made during the intermediate session when call money eased to 7 per cent as a result of the very light inquiry for funds. Equipments and oils were brought forward by pools and the railway division developed firmer tendencies.

Stocks recorded their best prices in

dencies.

Stocks recorded their best prices in the later dealings when steels, ralls, equipments and oils were 1 to 3 points above yesterday's final quotations.

FINE BLITFF, Ark Dewey Neison. 18, and Miss ida May Woodruff, 18 were married here today by Judge R H Williams. The consent of the parents young people was secured, it &

ROUND THE TICKER

Cotton

New Orleans.—New York wires that Mitchell principal buyer; better demand nears. English mill reports attracting some selling.—Shepard & Gluck. New Orleans.—Waco, Tex., wires. Few showers in South, Central and East Texas yesterday; indications rain central and North Texas. Clear in south, where clear weather is most needed. More inquiry spots.—Beer to McFall. New York.—Cancellations of orders for the fabries have added to the bear-ish factors in the mill situation and Providence reports indicate that many mills are planning shutdown and in-creased curtailment.—Wollman to Mc-Fall.

New York.-Continental spinning in New York.—Continental spinning in-terests are reported to be optimistic as to general outlook, although they do want financial help from America in the matter of credits. In Manchester there was a fair business in yarns and cloths were isteady. A good demand for spot cotton was noticeable in Liver-pool. There is a noticeable preponder-ance of bearish santiment here, but this means that there is a tendency to oversell.—Journal of Commerce. New York.—Liverpool reports a de-

New York.—Liverpool reports a decline in their market although an advance was due. Weather is generally tavorable. The general outlook both for crop and business is bearish but the sustaining element here is a good-sized short interest. Therefore, would avoid selling cotton on breaks.—T. & M. to Clark & Co. New York.-Liverpool cables: Twen-

ty seven mills staple product closing in Blackburn district: 15,000 looms closed.—Hubbard to Reese. New York.-Mitchell and Bartlett are conspicuous buyers on all soft spots this morning, supposed be for Mc-Padden. The textile trade news seems to get worse daily.—Sanders to Clark

New York.—Supporting October posi-tion; looks like market do better.— Hubbard to Reese.

New York.—Further covering before report; expect steady market without nuch change.—Hubbard to Reese. National Ginners revised its figures on condition to 76.1 and says bureau of crop estimates advise will use 230 pounds to acre as basis to figure indicated crop instead of usual 234 to 241 pounds. Explain that change made because of weevil. Says his figures indicates crop of 12,780,000 bales.

New York.—Market small, but easier on lower cables, continued favorable weather and London reports of closing some English mills owing dull business.—Gwathiney to Foster.

New York.—Weather this morning favorable. Liverpool weakness attributed to Southern fixing.—Fenner & Beane.

Beane.

New York.—Cha.lotte reports a good demand for the better grades of cotton but poor demand for off grades with mills entirely out of the market. Providence, R. I., cotton mill men say that unless business revives very quickly their mills will soon join the woolen and worsted industry in curtailment and shut downs.—F. & B. to W. & G. shut downs.—F. & B. to W. & G.

New York.—Governor Harding, of the federal reserve board, declared in an informal talk with newspaper men that the situation in the Middle West was much improved and that the crop movement had started in far better fashion than was thought possible a few months ago. He attributed this mainly to the speeding up of transpertation, the major portion of credit tightness being due to physical and not financial causes. The old crop, he said, was being moved out satisfactorily, clearing up the situation for the new.—Fenner & Beane.

New Orleans.—Detailed government record good deal of rain over South Texas, Louisiana and Mississippi. Such weather conditions and continued cloudy weather will cause detained to

weather conditions and continued cloudy weather will cause deterioration. Ad-vices from Alabama say crop deterior-ating from intense heat in daytime and unusually cool nights, some bad shed-ding reported.—Kofler to Clark & Co. Chicago.-Reports of our correspond-

Chicago.—Reports of our correspondents show a general average improvement in the condition of growing cotton during the past month. The average is three points below a ten-year period, but six points above last year. Condition is given as 73, which compared with 70.6, our report, and 70.7 government report of last month. On basis of average yield, the condition and acreage indicates a crop of 12,400,000 bales.—Clement, Curtis & Co., to McFall.

Chicago. — Lecount reports from Bradley, S. D.: Rust developed alarm-ingly past ten days, this territory nearly as bad as last year.—Wild to L. & G.

Chicago.—New York wires us expor wheat demand slow. English bids 5 cents lower. Weak exchanges against trade.—E. W. W. & Co., to S. & G. St. Louis wires: One broker says worked 100,000 bushels wheat here yes-cerday for export and still working on some Understand others also have ome inquiries.

some inquiries.

Chicago — Wheat, oats, rye and barley have about arrived where the crop killers will have to lay quiet for another year, as they are being harvested and all turning out away above any expectations of even the bears. Corn is above normal with highest condition and prospect of largest crop on record. There has been plenty of rain everywhere to carry the crop to maturity dry hot weather is just what crop is needing, but it is to be expected that some of the hig shorts who have covered will try to put something to get prices up until they can replace their short lines again — O'Brien to McFall.

Bartlett Frazier says. Our traveling Barilet Frazier says. Our traveling man found corn firing badly at Mt. Pulaski, III. territory yesterday. Rain must come in next few days or crop will be deeply cut.

Chicago. — Cromwell of Wagner & Chicago. — Cromwell of Wagner & Co., wires from Devils Lake, North Dakota: North Dakota not to get the rop looked for. Will do well to make about 70,000,000 wheat. Lots of light variey and oats showing since began to not.

Chicago.—Middle Illinois doing some talking about dry weather but there is only a very small percentage corn acreage at all in need of rain yet.—
T & M Grain Belt Forecast: Generally fair

onight and Priday somewhat cooler in Ellinois, Wisconsin and Minnesota, warmer elsewhere. Local crowd and elevator interests still working for further advance in the grains and are helped by these sec-tional dry weather reports. Market can work some higher easily as short interest is large, but see nothing yet to warrant changing a selling costion on warrant changing a selling position on the huiges.—Dennis to black & Co.

the buiges.—Dennis to Mark & Co.
Chicago.—Geo Lecount wires from
Aberdeen, S. D.: Wheat harvest is
on in this territory; some saw some
late fields that are almost totally
ruined, but the earliest wheat will make
a fair cook. I think about 75 per cent
of the crup here will yield from 12
to 18 bushels per acre of more or less
shrinken wheat! conditions here are
better than expected. The cool weather
saved the crop all grain ripening fast.
Chicago.—Difficial fluctures on tillnots Chicago.—Official figures on Illinois sinfalls since June 1, of only 1,21, a compared with a normal of 6.64, is tracting attention and creating ap-celeration in corn.—Rosenbaum Gr. Co. prehension in corn—Rosenbaum Gr. Co.
('hicago.—December wheat wax \$2.75
and now \$2.24. Cash wheat broke 14
cents in ('hicago yesterday, flour broke
75 cents per barrel in Muneapolis and
both look lower. Northwestrn National
both Municapolis, says there is about
\$100,000,000 though in old grain in the
three northwestern states, much of
which is a dead load on the banks with
new crops counting. Southwest finds
trouble financing new wheat and gencral money conditions are difficult
everywhere.—T. & M.
Chicago.—Frank C. Hollinger, of Lo-

everywhere T. & M.
Chiengo Frank t Hollinger of Lo-gan & Braan says. We have been somewhat builish on corn for the last few days, but now resultse that while weather conditions are a big factor, the financial situation is of far more im-portance at this time. Loans are being valled in the United States and Can-ada.

New York says. Hear 10 cars Argentine corn sold yesterday at \$1.50, in carliots, Think to go to New England This is about 3½c under the price of No. 2 yellow here.

Chicago—Weakness of cash "wheat, dip in sterling to \$2.72, failure of cash corn to hold its early prices denial of seriously dry in larger part of lilinois are among latest factors. Bid prices for carn now one lower—Wild to S. Wieblits Von

Wichita, Kas., wires; We hear of

farmers wanting to make contract to sell new corn. Feeders will only make bids of \$1.10 -T. & M. to Clark & Co. Chicago — Market plainly shows that ourn and cats buying has been by horts. There is no investment buying secause grains are cheap for they are

hand down rate decision end this week, it is fairly general there that it is not unanimous. A railroad official who has had long experience predicts decision will not come until ratter part of next week.—Dow-Jones & Co. week.—Dow-Jones & Co.

New York.—Canadian banks are calling loans rather largely this morning.

New York.—For the first time in over a year we have a pleasant word from an official of the reserve bank, but a little money at something under present rates would be mere convincing to the public that an improvement has eccurred. There has undoubtedly been a lot of liquidation in commodities as well as in security but does not necessarily mean we are ready for the return trip and a renewal of expansion. The most bearish element at the moment is the coal situation and manufacturing plants may find themselves in uncomfortable position very soon.—T. & M. to Clark & Co.

Chicago.—Argentine weekly forecast: Chicago.—Argentine weekly torecast: Shipments this week, wheat, 4,446,000 bushels corn. 1,200,000 bushels; cast. 1,-50,000 bushels; linseed 500,000 bushels.
